Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the audited financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the audited financial statements fairly present the state of affairs of the municipality as at the end of the financial period and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the audited financial statements and were given unrestricted access to all financial records and related data.

The audited financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The audited financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgments and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and places considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the audited financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2020 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

The audited financial statements set out on pages 8 to 93, which have been prepared on the going concern basis, were approved by the accounting officer on 29 November 2019.

Audited Financial Statements for the year ended 30 June 2019

Accounting Officer's Report

The accounting officer submits his report for the year ended 30 June 2019.

1. Review of activities

Main business and operations

The municipality is an organ of state within the local sphere of government exercising legislative and executive authority within an area determined in terms of the local government: Municipal Demarcation Act, 1998 and operates in South Africa.

The operating results and state of affairs of the municipality are fully set out in the attached audited financial statements and do not in our opinion require any further comment.

Net deficit of the municipality was R 83 835 303 (2018: deficit R 200 890 182).

2. Financial sustainability

The municipality is currently faced with numerous financial problems which impact, amongst others, on its ability to meet its financial commitments and the provision of sustainable basic services. Challenges faced regarding financial issues manifests in cash flow constraints. See note 55 for details.

3. Fruitless and wasteful expenditure

Given the current financial position of the municipality, there were instances where the municipality incurred interest due to late payment of creditor accounts. The interest incurred in this respect was unavoidable and has been disclosed in note 58.

4. Irregular expenditure

The municipality embarked on an overall review of the supply chain management function with the aim to support and implement a sustainable change within supply chain management. As part of its review, management conducted a detailed review of contracts that were awarded by the municipality. This review included confirming the scope and extent of contracts that were irregular.

This has resulted in a significant increase in the reported irregular expenditure. This increase resulted from irregular expenditure emanating from contracts awarded in the prior years. See note 59 for current financial period irregular expenditure incurred.

5. Going concern

The audited financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The ability of the municipality to continue as a going concern is dependent on a number of factors. The most significant is the continued funding by National and Provincial government for operational and capital activities. Refer to note 55 for details.

6. Subsequent events

The accounting officer is not aware of any matter or circumstance arising since the end of the year except for those mentioned in note 56.

7. Accounting policies

The audited financial statements were prepared in accordance with the Generally Recognised Accounting Practices (GRAP), including any interpretations, guidelines and directives issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).

8. Accounting Officer

The accounting officer of the municipality during the year and to the date of this report is:

Name
T. Goba

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Officer's Report

9. Secretary

The Secretarial function was performed by the Department of Corporate Support Services.

10. Corporate governance

General

The accounting officer is committed to business integrity, transparency and professionalism in all its activities. As part of this commitment, the accounting officer supports the highest standards of corporate governance and the ongoing development of best practice.

The municipality confirms and acknowledges its responsibility to total compliance with the Code of Corporate Practices and Conduct ("the Code") laid out in the King Report on Corporate Governance for South Africa 2002. The accounting officer discusses the responsibilities of management in this respect, at Executives Committee meetings and monitor the municipality's compliance with the code on a monthly basis.

11. Bankers

For the year under review, the primary bank account of Rand West City Local Municipality was First National Bank.

12. Auditors

Auditor General of South Africa will continue in office for the next financial year.

Rand West City Local Municipality

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1. Presentation of Audited Financial Statements

The audited financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).

These audited financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise.

Assets, liabilities, revenues and expenses were not offset, except where offsetting is either required or permitted by a Standard of GRAP.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these audited financial statements, are disclosed below.

These accounting policies are consistent with the previous period.

1.1 Presentation currency

These audited financial statements are presented in South African Rand, which is the functional currency of the municipality.

1.2 Going concern assumption

These audited financial statements have been prepared based on the expectation that the municipality will continue to operate as a going concern for at least the next 12 months.

1.3 Use of estimates

Management makes estimates and assumptions concerning the future in applying its accounting policies. The resulting accounting estimates may, by definition, not equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are detailed in the notes to the financial statements where applicable.

Management continually evaluates estimates and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions are recognised in the period in which the estimates are reviewed and in any future periods affected.

In the process of applying Rand West City Local Municipality's accounting policies, management has made the following significant accounting judgments, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

1.3.1 Classification of leases

All arrangements that are classified as leases are evaluated as operating and finance leases. These are then accounted in the annual financial statements in terms of the relevant GRAP standard.

1.3.2 Employee benefits including pension and other post-employment benefits

The cost of defined-benefit pension plans and other employment medical benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

1.3.3 Impairment of receivables

The calculation in respect of the impairment of receivables is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments. This was performed per service identifiable categories across all debtor classes.

1.3.4 Impairment of property, plant and equipment, heritage assets and intangible assets

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.3 Use of estimates (continued)

The calculation in respect of the impairment of property, plant and equipment is based on an assessment of the extent to which the recoverable amount of the asset has declined below the carrying amount. This was performed across all classes of property, plant and equipment.

1.3.5 Provisions, landfill rehabilitation provision and contingent liabilities

Management's judgments is required when recognising and measuring provisions, landfill rehabilitation provision and contingent liabilities. Provisions are discounted where the effect of discounting is material, using actuarial valuations.

1.3.6 Useful lives of property, plant and equipment and intangible assets

The useful lives of assets are based on management's estimates. Management considers the impact of technology, service requirements and required return on assets to determine the optimum useful-life expectation, where appropriate. The estimated residual values of assets are also based on management's judgments on whether the assets will be sold or used to the end of their useful lives, and what their condition will be at that time.

1.4 Budget information

Municipality is typically subject to budgetary limits in the form of appropriations or budget authorisations (or equivalent), which is given effect through MFMA and the appropriate legislation.

The approved budget is prepared on a accrual basis and presented by economic classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 7/1/2018 to 6/30/2019.

The audited financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts.

1.5 Investments in controlled entities

1.5.1 Assets acquired at no costs/nominal cost

Where an asset is acquired at no cost, or for a nominal cost, its cost is its fair value as at date of acquisition.

1.5.2 Cash generating assets

Cash generating assets are those assets held by Rand West City Local Municipality with the primary objective of generating a commercial return. When an asset is deployed in a manner consistent with that adopted by a profit orientated entity, it generates a commercial return.

1.5.3 Carrying Amount

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

1.5.4 Cash generating unit

A cash generating unit is the smallest identifiable group of assets held with the primary objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

If an active market exists for the output produced by an asset or group of assets, that asset or group of assets is identified as a cash generating unit, even if some or all of the output is used internally. If the cash inflows generated by any asset or cash generating unit are affected by internal transfer pricing, Rand West City Local Municipality use management's best estimate of future price(s) that could be achieved in arm's length transactions in estimating: the future cash inflows used to determine the asset's or cash generating unit's value in use; and the future cash outflow used to determine the value in use of any other assets or cash generating units that are affected by the internal transfer pricing.

1.5.5 Costs of disposal

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.5 Investments in controlled entities (continued)

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs.

1.5.6 Cost of inventories

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

1.5.7 Current replacement cost

Current replacement cost is the cost the municipality incurs to acquire the asset on the reporting date.

1.5.8 Depreciation (Amortisation)

Depreciation (Amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

1.5.9 Exchange transactions for non-monetary assets

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination thereof, the asset acquired is initially measured at fair value (the cost), unless the fair value of neither the asset received nor the asset given up is reliably measurable. If the acquired item is not measured at its cost, its cost is measured at the carrying amount of the asset given up.

1.5.10 Discount rate

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money, represented by the current risk free rate of interest and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

1.5.11 Fair value

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable and willing parties in an arm's length transaction.

1.5.12 Impairment Loss

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

1.5.13 Net realisable value

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

1.5.14 Non-cash generating assets

Non-cash generating assets are assets other than cash generating assets.

1.5.15 Recognition criteria for assets

Assets are recognised if it is probable that future economic benefits or service potential will flow to Rand West City Local Municipality from the assets and the costs/fair value of the assets can be reliably measured. This applies to the following types of assets:

- Property, plant and equipment;
- Investment property;
- Intangible asset ; and
- Heritage assets.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.5 Investments in controlled entities (continued)

1.5.16 Recoverable amount

Recoverable amount of an asset or a cash generating unit is the higher of its fair value less costs to sell and its value in use.

1.5.17 Recoverable service amount

Recoverable service amount is the higher of non-cash generating asset's fair value less costs to sell and its value in use.

1.5.18 Useful life

Useful life is either the period of time over which an asset is expected to be used by Rand West City Local Municipality or the number of production or similar units expected to be obtained from the asset by Rand West City Local Municipality.

1.5.19 Value in use of non-cash generating assets

Value in use of non-cash generating assets is the present value of the non-cash generating assets remaining service potential. The present value of the remaining service potential of a non-cash generating assets is determined using the depreciated replacement cost approach.

The replacement cost of an asset is the cost to replace the asset's gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential.

The depreciated replacement cost is measured as the reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.

The replacement cost and reproduction cost of an asset is determined on an "optimised" basis. The rationale is that Rand West City Local Municipality would not replace or reproduce the asset with a like asset if the asset to be replaced or reproduced is an over designed or over capacity asset.

Over designed assets contain features which are unnecessary for the goods or services the asset provides. Overcapacity assets are assets that have a greater capacity than is necessary to meet the demand for goods or services the asset provides. The determination of the replacement cost or reproduction cost of an asset on an optimised basis thus reflects the service potential required of the asset.

1.6 Investments in associates

Cash includes cash on hand (including petty cash) and cash with banks (including call and fixed deposits). Cash equivalents are short term, highly liquid investments, readily convertible into known amounts of cash that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value.

For the purposes of the Cash Flow Statement, cash and cash equivalents comprise cash on hand and deposits held on call with banks, net of bank overdrafts. The Municipality categorises cash and cash equivalents as current assets. Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdrafts are expensed as incurred. Bank overdrafts are shown within borrowings in current liabilities on the Statement of Financial Position. Cash and cash equivalents and bank borrowings are subsequently recorded at face value.

1.7 Receivables from exchange transactions

Receivables from exchange transactions arise revenue that accrued to the municipality directly in return for services rendered/goods sold, the value of which approximates the consideration received or receivable which has not yet been paid.

Receivables from exchange transactions are recognised initially at fair value, plus transaction costs and subsequently recognised at amortised cost, using an effective interest rate less provision for impairment. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. An estimate for impairment of receivables is determined based on the impairment methodology for receivables using management's judgement and reasonable estimates.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.7 Receivables from exchange transactions (continued)

Bad debts are written off in the year during which they are identified as irrecoverable, subject to the approval by the appropriate delegated authority. Amounts receivable within 12 months from the date of reporting are classified as current. The average credit period on services rendered is 30 days from date of invoice. An impairment allowance for impairment of receivables is established when there is objective evidence that Rand West City will not be able to collect all amounts due according to the original terms of receivables. Accordingly the carrying amount of the receivables is reduced through the use of an impairment allowance for impairment of debtors account. The impairment loss or gain is recognised in statement of financial performance.

An impairment allowance is decreased if the decrease can be related objectively to an event occurring after the impairment was recognised. The impairment is reversed by adjusting the allowance account. The reversal does not result in a carrying amount that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in surplus or deficit.

1.8 Receivables from non-exchange transactions

Receivables from non-exchange transactions are receivables from transactions that are not exchange transactions. In a non-exchange transaction, a municipality either receives value from another municipality without directly giving approximately equal value in exchange, or gives value to another municipality without directly receiving approximately equal value in exchange.

Receivables from non exchange transactions are recognised initially at fair value, plus transaction costs and subsequently recognised at amortised cost, using an effective interest rate less provision for impairment. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. An estimate for impairment of receivables is determined based on the impairment methodology for receivables using management's judgement and reasonable estimates.

1.8.1 Property rates

Property rates receivables are taxes where economic benefits or service potential are payable to Rand West City, in accordance with laws and or regulations, established to provide revenue to government. Taxes do not include fines or other penalties imposed for breaches of the law.

1.8.2 Traffic fines

Traffic fines are economic benefits or service potential received or receivable by the municipality, as determined by a court or other law enforcement body, as a consequence of the breach of laws or regulations. The fines are assessed for impairment and recoverability at the end of each financial year which reduces the gross amount due to Rand West City.

1.8.3 Sundry debtors

Sundry debtors are miscellaneous amounts owed to Rand West City and are assessed for impaired which reduces the gross amount.

1.8.4 Gauteng Department of Human Settlements

This is a receivable of money gazetted and owing to Rand West City grants and subsidies not yet transferred to the municipality. The receivable is recognised as an asset where the future events are under the municipality's control and until the funds are transferred to Rand West City.

1.9 Prepayments

A prepayment is the settlement of expenditure or capital expenditure before the goods are delivered or services are rendered. A prepayment can either be made for the entire balance of a liability or for an upcoming payment that is paid in advance of the date for which the municipality is contractually obligated to pay. Rand West City Local Municipality recognises prepayments as current assets and subsequently expenses or capitalises them when the goods are received or services are rendered.

1.10 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.10 Inventories (continued)

Inventories are measured at the lower of cost and current replacement cost where they are held for;

- distribution at no charge or for a nominal charge; or
- consumption in the production process of goods to be distributed at no charge or for a nominal charge.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution.

Current replacement cost is the cost the municipality incurs to acquire the asset on the reporting date.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories of items that are not ordinarily interchangeable and goods or services produced and segregated for specific projects is assigned using specific identification of the individual costs.

When inventories are sold, the carrying amounts of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expenses are recognised when the goods are distributed, or related services are rendered. The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

1.11 Long term receivables

Long term receivables are consumer debtors who enter into an arrangement with the municipality to pay over an agreed period of time. They are recognised as an asset with the current portion being due within 12 months and the non current portion due more than 12 months as at the end of the financial year. The carrying amount is net of debt impairment which is the loss of value in the long term receivable and the impairment is recognised as an expense in the statement of financial performance.

1.12 Construction contracts and receivables

A long-term investment is an account on the asset side of a municipality's statement of financial position that represents the municipality's investments, including stocks, bonds, real estate and cash, that it intends to hold for interest or security.

A current investment is an investment that is by its nature readily realisable and is intended to be held for not more than one year from the date on which such investment is made.

A long term investment is an investment other than a current investment.

The carrying amount for investments is the market value which generally provides the best evidence of fair value. The increase or decrease in investment is accounted for in the statement of financial performance.

1.13 Biological assets that form part of an agricultural activity

The municipality recognises a biological assets that form part of an agricultural activity or agricultural produce when, and only when:

- the entity controls the asset as a result of past events;
- it is probable that future economic benefits or service potential associated with the asset will flow to the municipality; and
- the fair value or cost of the asset can be measured reliably.

Biological assets that form part of an agricultural activity are measured at their fair value less costs to sell.

The fair value of livestock is determined based on market prices of livestock of similar age, breed, and genetic merit.

The fair value of milk is determined based on market prices in the local area.

A gain or loss arising on initial recognition of biological assets that form part of an agricultural activity or agricultural produce at fair value less costs to sell and from a change in fair value less costs to sell of a biological assets that form part of an agricultural activity is included in surplus or deficit for the period in which it arises.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.13 Biological assets that form part of an agricultural activity (continued)

Where market determined prices or values are not available, the present value of the expected net cash inflows from the asset, discounted at a current market-determined pre-tax rate where applicable is used to determine fair value.

1.14 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations.

Owner-occupied property is property held for use in the production or supply of goods or services or for administrative purposes.

Investment property is recognised as an asset when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially recognised at cost. Transaction costs are included in the initial measurement.

Where investment property is acquired through a non-exchange transaction, its cost is its fair value as at the date of acquisition.

Costs include costs incurred initially and costs incurred subsequently to add to, or to replace a part of, or service a property. If a replacement part is recognised in the carrying amount of the investment property, the carrying amount of the replaced part is derecognised.

Fair value

Subsequent to initial measurement investment property is measured at fair value.

The fair value of investment property reflects market conditions at the reporting date.

A gain or loss arising from a change in fair value is included in net surplus or deficit for the period in which it arises.

If the municipality determines that the fair value of an investment property under construction is not reliably determinable but expects the fair value of the property to be reliably measurable when construction is complete, it measures that investment property under construction at cost until either its fair value becomes reliably determinable or construction is completed (whichever is earlier). If the municipality determines that the fair value of an investment property (other than an investment property under construction) is not reliably determinable on a continuing basis, the municipality measures that investment property using the cost model (as per the accounting policy on Property, plant and equipment). The residual value of the investment property is then assumed to be zero. The entity applies the cost model (as per the accounting policy on Property, plant and equipment) until disposal of the investment property.

Once the municipality becomes able to measure reliably the fair value of an investment property under construction that has previously been measured at cost, it measures that property at its fair value. Once construction of that property is complete, it is presumed that fair value can be measured reliably. If this is not the case, the property is accounted for using the cost model in accordance with the accounting policy on Property, plant and equipment.

Investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

Gains or losses arising from the retirement or disposal of investment property is the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in surplus or deficit in the period of retirement or disposal.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.14 Investment property (continued)

Property interests held under operating leases are classified and accounted for as investment property in the following circumstances:

When classification is difficult, the criteria used to distinguish investment property from owner-occupied property and from property held for sale in the ordinary course of operations, including the nature or type of properties classified as held for strategic purposes, are as follows:

The nature OR type of properties classified as held for strategic purposes are as follows:

The municipality separately discloses expenditure to repair and maintain investment property in the notes to the audited financial statements (see note 11).

The municipality discloses relevant information relating to assets under construction or development, in the notes to the audited financial statements (see note 11).

1.15 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located is also included in the cost of property, plant and equipment, where the entity is obligated to incur such expenditure, and where the obligation arises as a result of acquiring the asset or using it for purposes other than the production of inventories.

Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management.

Items such as spare parts, standby equipment and servicing equipment are recognised when they meet the definition of property, plant and equipment.

Major inspection costs which are a condition of continuing use of an item of property, plant and equipment and which meet the recognition criteria above are included as a replacement in the cost of the item of property, plant and equipment. Any remaining inspection costs from the previous inspection are derecognised.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.15 Property, plant and equipment (continued)

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Any increase in an asset's carrying amount, as a result of a revaluation, is credited directly to a revaluation surplus. The increase is recognised in surplus or deficit to the extent that it reverses a revaluation decrease of the same asset previously recognised in surplus or deficit.

Any decrease in an asset's carrying amount, as a result of a revaluation, is recognised in surplus or deficit in the current period. The decrease is debited directly to a revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Depreciation method	Average useful life
Land	Straight line	Indefinite
Buildings	Straight line	5 - 100 years
Infrastructure	Straight line	5 - 100 years
Community	Straight line	5 - 100 years
Other property, plant and equipment	Straight line	3 - 10 years
Leased assets	Straight line	3 - 7 years
Library books	Straight line	3 - 50 years

The depreciable amount of an asset is allocated on a systematic basis over its useful life.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the municipality. The depreciation method applied to an asset is reviewed at least at each reporting date and, if there has been a significant change in the expected pattern of consumption of the future economic benefits or service potential embodied in the asset, the method is changed to reflect the changed pattern. Such a change is accounted for as a change in an accounting estimate.

The municipality assesses at each reporting date whether there is any indication that the municipality expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. If any such indication exists, the municipality revises the expected useful life and/or residual value accordingly. The change is accounted for as a change in an accounting estimate.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

Assets which the municipality holds for rentals to others and subsequently routinely sell as part of the ordinary course of activities, are transferred to inventories when the rentals end and the assets are available-for-sale. Proceeds from sales of these assets are recognised as revenue. All cash flows on these assets are included in cash flows from operating activities in the cash flow statement.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.15 Property, plant and equipment (continued)

The municipality separately discloses expenditure to repair and maintain property, plant and equipment in the notes to the financial statements (see note 12).

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note 12).

1.16 Intangible assets

An asset is identifiable if it either:

- is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the entity intends to do so; or
- arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the municipality or from other rights and obligations.

A binding arrangement describes an arrangement that confers similar rights and obligations on the parties to it as if it were in the form of a contract.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality; and
- the cost or fair value of the asset can be measured reliably.

The municipality assesses the probability of expected future economic benefits or service potential using reasonable and supportable assumptions that represent management's best estimate of the set of economic conditions that will exist over the useful life of the asset.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost at the date of acquisition is measured at its fair value as at that date.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Internally generated goodwill is not recognised as an intangible asset.

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.16 Intangible assets (continued)

Item	Useful life
Servitudes	Indefinite
Computer software	3 - 10 years

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note 13).

Intangible assets are derecognised:

- on disposal; or
- when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of an intangible assets is included in surplus or deficit when the asset is derecognised.

1.17 Heritage assets

Heritage assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

The municipality separately discloses expenditure to repair and maintain heritage assets in the notes to the financial statements (see note 14).

The municipality discloses relevant information relating to assets under construction or development, in the notes to the financial statements (see note 14).

Recognition

The municipality recognises a heritage asset as an asset if it is probable that future economic benefits or service potential associated with the asset will flow to the municipality, and the cost or fair value of the asset can be measured reliably.

Initial measurement

Heritage assets are measured at cost.

Where a heritage asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition.

Subsequent measurement

After recognition as a heritage asset, a class of heritage assets, whose fair value can be measured reliably, is carried at a revalued amount, being its fair value at the date of the revaluation less any subsequent impairment losses. Revaluation is performed every five years.

If a heritage asset's carrying amount is increased as a result of a revaluation, the increase is credited directly to a revaluation surplus. However, the increase is recognised in surplus or deficit to the extent that it reverses a revaluation decrease of the same heritage asset previously recognised in surplus or deficit.

If a heritage asset's carrying amount is decreased as a result of a revaluation, the decrease is recognised in surplus or deficit. However, the decrease is debited directly to a revaluation surplus to the extent of any credit balance existing in the revaluation surplus in respect of that heritage asset.

Impairment

The municipality assess at each reporting date whether there is an indication that it may be impaired. If any such indication exists, the municipality estimates the recoverable amount or the recoverable service amount of the heritage asset.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.17 Heritage assets (continued)

Transfers

Transfers from heritage assets are only made when the particular asset no longer meets the definition of a heritage asset.

Transfers to heritage assets are only made when the asset meets the definition of a heritage asset.

Derecognition

The municipality derecognises heritage asset on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of a heritage asset is included in surplus or deficit when the item is derecognised (unless the Standard of GRAP on leases requires otherwise on a sale and leaseback).

1.18 Payables from exchange transactions

Payables from exchange transactions is money owing by the municipality in exchange for goods and services and are stated at their nominal value. The carrying amount of these payables approximates fair value due to the short period to maturity of these instruments.

1.19 Payables from non exchange transactions

Payables from non exchange transactions is money owing by the municipality for which there was no exchange for goods and services and are stated at their nominal value. The carrying amount of these payables approximates fair value due to the short period to maturity of these instruments.

1.20 Unspent conditional grants

This is represented funds unspent at the end of the financial year on grants received from national and provincial government or any other external party that can only be spent for the condition for which it was received. The amount is recognised as a current liability until the conditions of the grant are met or the money is transferred back to the funder.

1.21 Consumer deposits

Consumer deposits are a partial security for a future payment of an account. All consumers are therefore required to pay a deposit equal to two months consumption of electricity and water services. Deposits are considered a liability as the deposit is only refunded once the service is terminated. No interest is paid on deposits.

1.22 Value added tax (VAT)

The municipality accounts for VAT on an accrual basis and is registered with the South African Revenue Services (SARS) for VAT on the payments (cash) basis, in accordance with Section 15(2) of the VAT Act (Act No. 89 of 1991).

1.23 Leases

At inception of an arrangement, Rand West City Local Municipality determines whether the arrangement is or contains a lease.

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, Rand West City Local Municipality assesses the classification of each element separately. The land and the buildings elements of a lease are considered separately for the purpose of lease classification as finance or an operating lease.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.23 Leases (continued)

Finance leases - Rand West City Local Municipality lessor

The municipality recognises finance lease receivables as assets on the statement of financial position. Such assets are presented as a receivable at an amount equal to the net investment in the lease.

Finance revenue is recognised based on a pattern reflecting a constant periodic rate of return on the municipality's net investment in the finance lease. Lease payment relating to the period, excluding costs for services, are applied against the gross investment in the lease to reduce both the principal and the unearned finance revenue.

Finance leases - Rand West City Local Municipality lessee

Finance lease assets are capitalised as property, plant and equipment at the lower of fair value or the present value of the minimum lease payments at the inception of the lease with an equivalent amount being stated as finance lease liability as part of debt.

The capitalised amount is depreciated over the shorter of the lease-term and asset's useful life unless it is reasonably certain that Rand West City Local Municipality will obtain ownership by the end of the lease term, in which case it is depreciated over its useful life.

Lease payments are allocated between capital repayments and finance expenses using the effective interest rate method.

Operating leases - Rand West City Local Municipality lessor

Rand West City Local Municipality presents assets subject to operating leases in the Statement of Financial Position according to the nature of the asset. These assets are depreciated in accordance with Rand West City Local Municipality's normal depreciation policy.

Lease revenue from operating leases is recognised as revenue on a straight line basis over the lease term, unless another systematic basis is more representative of the time pattern in which benefit derived from the leased asset is diminished. Costs, including depreciation, incurred in earning the lease revenue are recognised as an expense.

Initial direct costs incurred by Rand West City Local Municipality in negotiating and arranging an operating lease is added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease revenue.

Operating leases - Rand West City Local Municipality lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

1.24 Borrowings

Borrowings are long term and short term loans obtained by the municipality from financial institutions for the purpose of capital or operating expenses and interest is charged to the principal debt.

The portion of borrowings due within twelve months of the financial reporting date is disclosed as a current liability and the portion due in more than twelve months of reporting date is disclosed as a non current liability.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.25 Provisions

A provision is a liability of uncertain timing or amount. Rand West City Local Municipality recognises provisions when:

- the municipality has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses.

Long-term provisions are determined by discounting the expected future cash flows to their present value. The increase in discounted long-term provisions as a result of the passage of time is recognised as a finance expense in the Statement of Financial Performance.

Provisions are used only for expenditures for which the provision was originally recognised.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Those which can be settled within twelve months are treated as current liabilities. All other provisions are treated as non-current liabilities.

The municipality has an obligation to dismantle, remove and restore items of property, plant and equipment. Such obligations are referred to as 'decommissioning, restoration and similar liabilities'. The cost of an item of property, plant and equipment includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which an municipality incurs either when the item is acquired or as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

If the related asset is measured using the cost model:

- (a) subject to (b), changes in the liability are added to, or deducted from, the cost of the related asset in the current period;
- (b) if a decrease in the liability exceeds the carrying amount of the asset, the excess is recognised immediately in surplus or deficit; and
- (c) if the adjustment results in an addition to the cost of an asset, the municipality considers whether this is an indication that the new carrying amount of the asset may not be fully recoverable. If it is such an indication, the asset is tested for impairment by estimating its recoverable amount or recoverable service amount, and any impairment loss is recognised in accordance with the accounting policy on impairment of cash-generating assets and/or impairment of non-cash-generating assets.

1.26 Employee benefit obligation

Defined contribution plans

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due.

Payments made to industry-managed (or state plans) retirement benefit schemes are dealt with as defined contribution plans where the entity's obligation under the schemes is equivalent to those arising in a defined contribution retirement benefit plan.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.26 Employee benefit obligation (continued)

Defined benefit plans

For defined benefit plans the cost of providing the benefits is determined using the projected credit method.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan.

Consideration is given to any event that could impact the funds up to end of the reporting period where the interim valuation is performed at an earlier date.

Past service costs are recognised immediately to the extent that the benefits are already vested, and are otherwise amortised on a straight line basis over the average period until the amended benefits become vested.

To the extent that, at the beginning of the financial period, any cumulative unrecognised actuarial gain or loss exceeds ten percent of the greater of the present value of the projected benefit obligation and the fair value of the plan assets (the corridor), that portion is recognised in surplus or deficit over the expected average remaining service lives of participating employees. Actuarial gains or losses within the corridor are not recognised.

Gains or losses on the curtailment or settlement of a defined benefit plan is recognised when the entity is demonstrably committed to curtailment or settlement.

When it is virtually certain that another party will reimburse some or all of the expenditure required to settle a defined benefit obligation, the right to reimbursement is recognised as a separate asset. The asset is measured at fair value. In all other respects, the asset is treated in the same way as plan assets. In surplus or deficit, the expense relating to a defined benefit plan is presented as the net of the amount recognised for a reimbursement.

The amount recognised in the statement of financial position represents the present value of the defined benefit obligation as adjusted for unrecognised actuarial gains and losses and unrecognised past service costs, and reduces by the fair value of plan assets.

Any asset is limited to unrecognised actuarial losses and past service costs, plus the present value of available refunds and reduction in future contributions to the plan.

1.26.1 Short term employee benefits

Remuneration of employees is charged to the Statement of Financial Performance.

Short-term employee benefits are those that are expected to be settled completely within 12 months after the end of the reporting period in which the services have been rendered. Short term benefits include the paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care.

Short-term employee benefit obligations are measured on an undiscounted basis and are charged to the Statement of Financial Performance as the related service is provided.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

A liability is recognised for accumulated leave, incentive/performance bonuses and other employee benefits when Rand West City Local Municipality has a present legal or constructive obligation as a result of past service provided by the employee, and a reliable estimate of the amount can be made.

1.26.2 Defined contribution pension plan and defined benefit pension plans

Rand West City Local Municipality contributes to defined contribution pension plans and defined benefit pension plans for its employees. These plans are generally funded through payments to trustee-administered funds as determined by annual actuarial calculations.

1.26.3 Retirement benefits

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.26 Employee benefit obligation (continued)

Defined contribution plans are post-employment benefit plans under which Rand West City Local Municipality pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

Contributions to defined contribution pension plans are charged to the Statement of Financial Performance as an employee expense in the period in which related services are rendered by the employee or as they fall due.

Contributions that are expected to be wholly settled more than 12 months after the end of the reporting period, in which the employee renders the service, are discounted to their present value.

1.26.4 Defined benefit plans - Post-retirement health care benefits

Rand West City Local Municipality provides post-retirement benefits by subsidising the medical aid contributions of certain of its retirees and their spouses. The entitlement of these benefits is usually based on the employee remaining in service up to retirement age, the completion of a minimum service period of 10 years and the employee continuing to pay their own contributions to the scheme.

Past service costs is recognised in surplus or deficit in the reporting period in which the plan is amended irrespective of whether vesting periods exist.

The amount recognised in the Statement of Financial Position represents the present value of the defined benefit obligation. The expected costs of these benefits are accrued on a systematic basis over the expected remaining period of employment, using the project credit method. Independent actuaries perform the calculation of this obligation annually. Actuarial gains or losses are recognised, in the Statement of Financial Performance, in the period that they occur.

1.26.5 Other long term employee benefits

Long-term benefits are those that are provided to employees more than 12 months after the reporting date. Currently Rand West City Local Municipality provides the following additional payments to employees based on certain criteria:

1.26.6 Gratuity payment benefits

The municipality provides additional gratuity payments for employees who were not allowed to contribute retirement benefit plans under the apartheid government. This benefit is based on half the basic salary (at retirement) of the employee multiplied by the number of years that the employee was not allowed to contribute retirement benefit plans.

1.26.7 Long service awards

The municipality offers various types of long service awards to its employees, payable on completion of minimum number of years of employment.

Rand West City Local Municipality's liability is based on an actuarial valuation. Actuarial gains and losses on the long-term incentives are fully accounted for in the Statement of Financial Performance. The projected unit credit method was used to value the obligation.

The present value of the obligation is recognised on the Statement of Financial Position.

1.27 Compound instruments

The accumulated surplus represents the net difference between the total assets and the total liabilities of the municipality. Any surpluses and deficits realised during a specific financial period are credited/debited against accumulated surplus/deficit. Prior year adjustments, relating to income and expenditure, are debited/credited against accumulated surplus when retrospective adjustments are made.

1.28 Revaluation reserve

The surplus arising from the revaluation of property, plant and equipment is credited to a non-distributable reserve. The revaluation surplus is realised as revalued heritage assets increase or decrease in value every five years. On disposal, the net revaluation surplus is transferred to the accumulated surplus while gains or losses on disposal, based on revalued amounts, are credited or charged to the statement of financial performance.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.29 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

Revenue is recognised when it is probable that future economic benefits or services potential will flow to Rand West City Local Municipality, and when these benefits can be reliably measured.

Revenue is recognised net of indirect taxes, rebates and trade discounts, and consists primarily of rates, service charges, rentals, interest received, grants from national and provincial government and other services rendered.

Revenue is measured at the fair value of the consideration received or receivable. The amount of revenue arising on a transaction is usually determined by agreement between the Rand West City Local Municipality and the purchaser or user of the asset or service.

Where the fair value of the goods or services received cannot be measured reliably, the revenue is measured at the fair value of the goods or services given up, adjusted by the amount of any cash or cash equivalents transferred.

When the arrangement effectively constitutes a financing transaction, the fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest. The imputed rate of interest is the more clearly determinable of either:

- The prevailing rate for a similar instrument of an issuer with a similar credit rating; or a rate of interest that discounts the nominal amount of the instrument to the current cash sales price of the goods or services.
- The difference between the fair value and the nominal amount of the consideration is recognised as interest revenue.
- Rand West City Local Municipality derives revenue from exchange and non-exchange transactions.

Revenue from exchange transactions refers to revenue that accrued to the municipality directly in return for services rendered/goods sold, the value of which approximates the consideration received or receivable.

1.29.1 Service charges:

Rand West City Local Municipality recognises revenue from the rendering of services by reference to the stage of completion method when the outcome of the transaction can be measured reliably. The outcome of the transaction can be reliably measured, that is, when all the following conditions are satisfied:

- The amount of revenue can be measured reliably.
- It is probable that the economic benefits or service potential associated with the transaction will flow to Rand West City Local Municipality.
- The stage of completion of the transaction at the reporting date can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.
- When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

Revenue arising from the provisioning of the services which is based on the approved tariff charges is recognised when the relevant service is rendered, by applying the relevant authorised tariff.

Service charges relating to electricity and water are based on consumption. Meters are read on a periodic basis and revenue is recognised when billed. Provisional estimates of consumption are made monthly when meter readings have not been performed and are based on the consumption history or deemed consumption for households. The provisional estimates of consumption are recognised as revenue when billed. Adjustments to provisional estimates of consumption are made in the billing period when meters have been read. These adjustments are recognised as revenue in the billing period.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.29 Revenue from exchange transactions (continued)

An accrual on the basis of a determined consumption factor is made for consumption not measured as at the end of each reporting period. Residential sanitation service charges are based on taking 30kl of water consumption and multiply by applicable tariff for financial period. Business sanitation service charges are based on taking the twelve months water consumption multiply by the applicable. Basic Sewerages are based on taking the area size of the property multiply by the applicable tariff.

Service charges relating to refuse removal are recognised on a monthly basis based on 240l bins collected on a weekly basis.

Revenue from the sale of prepaid electricity and water is recognised at the point of sale less unused electricity and water at the end of the financial period.

1.29.2 Rental of facilities and equipment

Revenue from the rental of facilities and equipment is recognised on a straight line basis over the term of the lease agreement.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariff and includes the issuing of licences and permits.

1.29.3 Interest received - investment

Interest earned on investments is recognised on a time proportionate basis that takes into account the effective yield on the investments.

1.29.4 Interest received - outstanding receivables

Interest earned on outstanding receivables are recognised on a time proportionate basis and receivables are charged an interest rate of 10%.

1.29.5 Income from agency fees

Income for agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

1.29.6 Other income

Other income is miscellaneous revenue generated by the municipality and is recognised on an accrual basis.

1.30 Revenue from non-exchange transactions

Revenue from non-exchange transactions refers to transactions where Rand West City Local Municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

1.30.1 Property rates

Revenue from property rates is calculated from the date when the legal entitlement to this revenue arises and is recognised when billed. Collection charges are recognised when such amounts are legally enforceable and billed. Penalty interest on unpaid rates is recognised on a time proportion basis. A rating system charging one tariff is employed. Rebates and remissions are granted to certain categories of ratepayers and are recognised net of revenue.

1.30.2 Conditional grants and receipts

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the conditions have not yet been met, the receipt will be recognised as a liability (Unspent conditional grants and receipts).

1.30.3 Public donations and contributions

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.30 Revenue from non-exchange transactions (continued)

Public donations and contributions are recognised on a cash receipt basis or, where the donation is in the form of property, plant and equipment, when the risks or rewards of ownership have transferred to the Municipality. Public donations and contributions are measured at fair value.

1.30.4 Fines

Fines constitute both spot fines and summonses. Revenue from spot fines and summonses is recognised when the fine is issued. Traffic fines are measured at fair value, which is based on the value of the fines issued, excluding the value of any early settlement discounts that are likely to be taken up by motorists. Interest is not levied on overdue amounts.

Subsequently, Rand West City Local Municipality evaluates the recoverability of these fines to determine the recoverable amount. This takes into account settlement discounts, reductions in the amount payable are offered, past history in terms of the successful prosecution and recovery of the fines. Rand West City Local Municipality does not recognise services in-kind as assets or revenue.

1.31 Expenditure

Expenditure in the statement of financial performance is operational costs incurred in the normal operations of the municipality. Expenditure is accounted for on an accrual basis that is when the expense is incurred and not when it is paid. The following expenditure classes are applicable to Rand West City Local Municipality:

1.31.1 Employee related costs

Employee related costs is the expense incurred by the municipality to Rand West City employees. It is accounted for the period in which the employees would have worked that is the costs includes any accrued items such as leave and bonuses which will be paid after the financial year.

1.31.2 Remuneration of councillors

Remuneration of councillors is an expense incurred by the municipality to political office bearers and councillors and are set by the upper limits as determined by the framework envisaged in section 219 of the Constitution.

1.31.3 Depreciation and amortisation

Depreciation and amortisation is the portion of the cost of property plant and equipment and intangible assets which are spread over the useful life of the asset.

1.31.4 Impairment loss of assets

Impairment loss of assets is the loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential. The expense is recognised in the year it occurs and reversed when the conditions of impairment assessment change.

1.31.5 Finance costs

Finance costs is the interest charged on money owed by the municipality or the time value of money lost and is accounted for in the period in which it occurs.

1.31.6 Debt impairment

Debt impairment is the loss in the future economic benefits or service potential of a receivable. At the end of each financial year money owed to the municipality is assessed for recoverability and the portion assessed to be irrecoverable will be expensed in the statement of financial performance.

1.31.7 Assets derecognised

Assets derecognised are items of assets that are written off the municipality's asset register as they will no longer meet the definition of an asset. The derecognition is accounted for in the financial year's statement of financial performance when the assessment occurs.

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.31 Expenditure (continued)

1.31.8 Bulk purchases

Bulk purchases is the cost of electricity and water the municipality is billed by Eskom and Rand Water respectively in a financial period.

1.31.9 Contracted services

Contracted services are the services the municipality has outsourced and the cost represents the charges in the financial period.

1.31.10 Transfers and subsidies

Transfers and subsidies is the cost of contribution made by Rand West City to SPCA. The municipality transfers money to individuals, organisations and other sectors of government from time to time. When making these transfers, the municipality does not: receive any goods or services directly in return, as would be expected in a purchase or sale transaction; expect to be repaid in future; or expect a financial return, as would be expected from an investment. These transfers are recognised in the statement of financial performance as expenses in the period that the events giving rise to the transfer occurred.

1.31.11 General expenses

General expenses are the administrative and operational costs incurred by the municipality. These include repairs and maintenance which are generally charged to expenses during the financial period in which they occurred. However, major renovations are capitalised and included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the company. Major renovations are depreciated over the remaining useful life of the related asset.

1.32 Actuarial gains and losses

Actuarial gains and losses comprise the difference between the pension payments actually made by an employer and the expected amount. A gain occurs if the amount paid is less than expected. A loss occurs if the amount paid is higher than expected. The amount is recognised as non operating revenue or (expenditure) in the statements of financial performance.

1.33 Fair value adjustments

Fair value adjustments is the difference of the amount for which an investment property or biological asset could be exchanged, or a liability settled, between knowledgeable and willing parties in an arm's length transaction and the opening carrying amount of the investment property or biological asset. The increase or decreased is accounted for in the non operating section of the statement of financial performance.

1.34 Commitments

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

Disclosures are required in respect of unrecognised contractual commitments.

Commitments for which disclosure is necessary to achieve a fair presentation should be disclosed in a note to the financial statements, if both the following criteria are met:

- Contracts should be non-cancellable or only cancellable at significant cost (for example, contracts for computer or building maintenance services); and
- Contracts should relate to something other than the routine, steady, state business of the entity – therefore salary commitments relating to employment contracts or social security benefit commitments are excluded.

1.35 Contingent liabilities

A contingent liability is:

A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or nonoccurrence of one or more uncertain future events not wholly within the control of the municipality; or

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.35 Contingent liabilities (continued)

A present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

Rand West City Local Municipality does not recognise contingent liabilities. Contingent liabilities are disclosed in the notes to the annual financial statements, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

Annually Rand West City Local Municipality evaluates the possibility of the outflow of resources or service potential.

1.36 Contingent assets

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of Rand West City Local Municipality.

Rand West City Local Municipality does not recognise contingent assets. Contingent assets are disclosed in the notes to the annual financial statements, where an inflow of economic benefits or service potential is probable.

Rand West City Local Municipality continually assesses its contingent assets to ensure that developments are appropriately reflected in the financial statements. Where it does become virtually certain that an inflow of economic benefits or service potential will arise and the asset's value can be measured reliably, the asset and the related revenue are recognised in the financial statements in the period in which the change occurs.

1.37 Related parties

A related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control.

Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Joint control is the agreed sharing of control over an activity by a binding arrangement, and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the parties sharing control (the ventures).

Related party transaction is a transfer of resources, services or obligations between the reporting entity and a related party, regardless of whether a price is charged.

Significant influence is the power to participate in the financial and operating policy decisions of an entity, but is not control over those policies.

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that management in their dealings with the municipality.

1.38 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

1.39 Financial instruments

Financial instruments are recognised when Rand West City Local Municipality becomes a party to the contractual provisions of the instrument, and are initially measured at fair value. In the case of a financial instrument not measured at fair value, transaction costs that are directly attributable to the acquisition or issue of the instrument are added to, or deducted from, the fair value, as appropriate on initial recognition.

1.39.1 Financial assets

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.39 Financial instruments (continued)

The classification of financial assets depends on their nature and purpose, and is determined at the time of initial recognition. Financial assets other than those at fair value are assessed for indicators of impairment at the end of each reporting period. Impairment is considered when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected. Financial assets are derecognised when the rights to receive cash flows from the assets have expired or have been transferred and Rand West City Local Municipality has transferred substantially all risks and rewards of ownership, or when the enterprise loses control of contractual rights that comprise the assets.

1.39.2 Financial assets at fair value

Financial assets that are held for trading or non-derivable financial assets with fixed or determinable payments that are designated at fair value at initial recognition. Subsequent to initial recognition, all changes to fair value are recognised through the Statement of Financial Performance.

1.39.3 Financial assets at amortised cost

Non-derivative financial assets with fixed or determinable payments and fixed maturity dates which Rand West City Local Municipality has positive intent and ability to hold to maturity are stated at amortised cost using the effective interest method less any impairment.

1.39.4 Financial assets at cost

Residual interests that do not have a quoted market price in an active market and the fair value of which cannot be reliably measured are stated at cost, less any impairment.

1.39.5 Financial liabilities

After initial recognition, Rand West City Local Municipality measures all financial liabilities, including payables, at amortised cost, using the effective interest rate method. Financial liabilities include borrowings, other non-current liabilities (excluding provisions) and payables (excluding provisions). Interest bearing external loans and bank overdrafts are recorded net of direct issue costs. Finance charges, including premiums payable, are accounted for on an accrual basis. Financial liabilities are derecognised when the obligation specified in the contract is discharged or cancelled or when it expires.

1.39.6 Offsetting

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amount, and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

1.40 Events after reporting date

Events after reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

The municipality will adjust the amount recognised in the financial statements to reflect adjusting events after the reporting date once the event occurred.

The municipality will disclose the nature of the event and an estimate of its financial effect or a statement that such estimate cannot be made in respect of all material non-adjusting events, where non-disclosure could influence the economic decisions of users taken on the basis of the financial statements.

1.41 Unauthorised expenditure

Unauthorised expenditure means:

- overspending of a vote or a main division within a vote; and

Rand West City Local Municipality

(Registration number GT485)

Audited Financial Statements for the year ended 30 June 2019

Accounting Policies

1.41 Unauthorised expenditure (continued)

- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense.

Should council approve this expenditure, no further action is required.

Where it is determined that this expenditure must be recovered, it is accounted for as revenue in the Statement of Financial Performance. A corresponding asset (receivable) is raised in the Statement of Financial Position which is accounted for in terms of Rand West City Local Municipality's accounting policy on receivables.

Unauthorised expenditure is accounted for in the financial statements and, where recovered, is subsequently accounted for as revenue in the same statement.

1.42 Fruitless and wasteful expenditure

Fruitless expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

1.43 Irregular expenditure

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure.

All expenditure relating to irregular expenditure is recognised as an expense in the statement of financial performance in the financial period that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

4. Receivables from exchange transactions (continued)

Receivables from exchange transactions pledged as security

No receivables from exchange transactions were pledged as security for liabilities.

Credit quality of receivables from exchange transactions

The credit quality of receivables from exchange transactions that are neither past nor due nor impaired can be assessed by reference to external credit ratings or to historical information about counterparty default rates. The municipality continuously monitors consumers and identified groups by reference to average payment history and incorporates this information into its credit risk control. No external credit rating is performed.

Receivables from exchange transactions impaired

As of 30 June 2019, receivables from exchange transactions of R 588 166 978 (2018: R 461 894 593) were assessed for impairment and provided for.

The amount of the allowance for impairment was R 404 970 394 as of 30 June 2019 (2018: R 311 151 061).

Rand West City Local Municipality has not discounted receivables from exchange transactions.

	11 157 305	254 869 905	32 694 110	298 721 320

Carrying value of property, plant and equipment that is taking a significantly longer period of time to complete than expected

Droogheuwel and Middelvlei bulk water supply	148 338 618	121 120 418
The above project took longer to complete due to the fact the previous appointed contractor could not performed and thus the contract was cancelled, the new contractor was appointed, the project is a multi year and still on going. The project is also not adequately funded from the allocations received from the Gauteng Department of Human Settlements.		
Construction of Badirile sport facility	8 719 931	8 719 931
The above project was started on 30 June 2017 and completed the project on 19 July 2018 instead of 31 December 2017. The delays were due to the extension of time which was granted, with revised completion date of 30 March 2018 due to additional work. However other factors like electrical connections from Eskom affected the project further and practical completion was reached on 19 June 2018. During the 2018/19 the projects was further by unrests by the community.		
Water and sanitation services in Mohlakeng extension 5	3 152 180	-
The above project was put on hold due to lack of funds.		
Construction of Brandeg road	1 190 436	-
The above project was not yet implemented as at 30 June 2019 due to lack of funds and only designs were done which amounted to the carrying amount reflected.		
	161 401 165	129 840 349

Carrying value of property, plant and equipment halted

The municipality did not have any property, plant and equipments that was halted during the current and prior financial years.

Notes to the Audited Financial Statements

Figures in Rand	2019	2018 Restated*
-----------------	------	-------------------

12. Property, plant and equipment (continued)

Expenditure incurred to repair and maintain various classes of property, plant was as follows:

Buildings	578 318	436 483
Community assets	9 969 312	2 045 841
Infrastructure assets	29 666 479	61 518 386
Other property, plant and equipment	292 431	541 551
	40 506 540	64 542 261

Impairment loss / (reversal) of property plant and equipment

Property, plant and equipment impaired for the year ended 30 June 2019 amounted to R 12 076 561 (2018: R 13 803 798). The reasons per class of assets are detailed below:

Land: In the current year, impairment of land was due to land invasion of which the municipality have lost control over its own land. In the prior year, property, plant and equipment was incorrectly classified as land invasion under the investment properties has being correctly classified in the 2017/18 financial year as a result the impairment on that land was reversed.

Buildings: In the current year, Mohlakeng new flats hostel, Bekkersdal hostel and Mohlakeng Delmas hostel were impaired due to a very bad condition of the buildings as most of the assets components were not performing at optimal required outcome, Bekkersdal business hives were impaired as facility was not in use based on non utilisation and non-performance, Badirile MPCC air conditioning, electrical installation, finishes fixtures and fittings, roofs and fabricated steel badly damaged as a result does not perform at its maximum potential and the Randfontein municipal offices building structure namely roofs, store room floor and lifts not being utilised due to water underground.

In the prior year, Mohlakeng Arenda hostel was damaged, Randfontein municipal mechanical workshop's small enclosed building and Westonaria depots and stores' water department was non functional due to lack of internet.

Infrastructure assets: In the current year, the Bekkersdal solid waste transfer station was badly vandalised as a result was not performing at its maximum potential.

In the prior year, substation Doveton St was non functional because the closure of industrial area which the substation was supplying and Hannes van Niekerk's waste water treatment works module 1 and old pump house at waste water treatment work in Randfontein were not working at year end. There was also an impairment reversal for the MV substation in Mohlakeng extension 11 which was non functional in 2016/17 was repaired and working as at 30 June 2018.

Community assets: In the current year, Sampson street park, Bambo Nobela park, Constantia park, Randfontein, Van der Stel park, Dlomo park, Xuma Street park and Sampson Street park play ground equipment was badly damaged as a result they are not in use, Bekkersdal cemetery, Simunye cemetery, Badirile cemetery, Randfontein south cemetery (Zenzele), Rikarus cemetery, Greenhills cemetery and Mohlakeng cemetery perimeter protection and external lighting are badly damaged as a results are not in use, Bird Sanctuary perimeter protection, roof, landscaping, water irrigation and water motor are badly vandalised as a result does not perform to it maximum potential, Westonaria wrestling club's entire facility vandalised and not in use, Mohlakeng stadium ablution's finishes fixtures and fittings and plumbing vandalised and were not in use, Bekkersdal five aside as the entire facility was vandalised and not in us and Bekkersdal, Simunye and Toekomsrus community libraries' building structure's walls (roof, plumbing, electrical installation, finishes fixtures and fittings and air conditioning) badly damaged as a result does not perform at its maximum potential

In the prior year, Mohlakeng MPCC in Randfontein was damaged in service delivery protest, Riebeek park and Bekkersdal business hive was non functional.

Commitments on Property, plant and equipment

See note 48 for commitments on each class of Property, plant and equipment as at 30 June 2019 and 2018.

It is municipality policy to lease certain motor vehicles and equipment under finance leases.

The municipality acquired a new finance lease in 2018/19 financial on a three year lease term and the effective borrowing rate was 11.25% as provided by the service provider on 26 April 2019 which is the effective date on which the finance lease commenced. The finance lease was for compactor trucks.

Interest rates are fixed at the contract date. All leases do not escalate and include additional charges for contingent rent which are administration fees, insurance and maintenance costs.

The municipality's obligations under finance leases are secured by the lessor's charge over the leased assets. Refer note 12.

21. Borrowings

At amortised cost

Development Bank of Southern Africa (DBSA) loan - 1 428 712

Interest rate on the loan was fixed at 15.5% per annum compounded semi annually.

The loan period was 20 years. The loan was paid up on 30 September 2018 and was secured by investments with a carrying amount of R 12 957 188 as at 30 June 2018.

Refer to note 9.

Current liabilities	13 223 395	11 993 968
	174 756 988	163 531 684

Landfill site provision

The valuation was performed by Seakle Godschalk who is a professional environmental scientist from Environmental and Sustainability Solutions CC who holds a Master's degree in Accounting. Seakle Godschalk is an independent valuer and is registered with the South African Council for Natural Scientific Professions as well as with the South African Institute of Ecologists and Environmental Scientists. The valuation was performed on the 25th of July 2019 and the current expected remaining life of the landfill is estimated at 6 years and 3 years for the Libanon and Uitvalfontein landfills respectively.

Legal proceedings provision

Legal proceedings provision represents an amount litigated by Quill and Associates against the municipality. This case emanated from interest charged on licensing agreement settlement on BIQ system that was previously used by the municipality. The system use was paid for in December 2016, however there is a court order against the municipality on interest from the date of claim of July 2013 to date, which municipality hasn't paid. When the case was finalised in 2016 the municipality paid interest for 2015 and 2016 only and not from 2013 to 2016. The municipality is appealing the court's decision.

Performance bonuses provision

During the current financial year, Executive management took a decision that no provision will be made due to the financial status of the municipality and the assessment that there will be no bonus payments and no budget was provided for in the next three financial years. The previous financial year's provision for performance bonus was calculated using a rate of 14% of the total package. The provision for performance bonus is categorised as a provision based on the fact that the performance bonus will only be paid once an employee has met a performance condition. Therefore it is uncertain whether all the employees who are qualifying for a performance bonus will meet the award criteria. In addition the bonus has to be approved by Council.

Minor claims provision

The municipality has recognised minor claims for damages which are below R 20 000 due to the trend of likely paying them out.

Notes to the Audited Financial Statements

Figures in Rand	2019	2018 Restated*
-----------------	------	-------------------

23. Employee benefit obligations

The amounts recognised in the statement of financial position are as follows:

Carrying value

Post retirement medical benefits	(142 945 632)	(133 858 833)
Long service awards	(37 612 795)	(33 673 867)
	(180 558 427)	(167 532 700)

Post retirement medical benefits

The Municipality offers employees and continuation members the opportunity of belonging to one of several medical aid schemes. Upon retirement, an employee may continue membership of the medical scheme. Upon a member's death in service or death in retirement, the surviving dependants may continue membership of the medical scheme. Qualifying members receive a post employment subsidy for which the municipality is liable.

The municipality operates an unfunded defined benefit plan for these qualifying employees.

The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit method.

At the valuation date individuals entitled to a post retirement medical aid subsidy were:

In-service (employee) members:	1 059	1 041
In-service (employee) non members:	229	267
Continuation (retiree and widow) members:	99	85

The current service costs are estimated at R 7 958 671 for the current financial year ending 30 June 2019 (2018: R 7 793 895).

Changes in the present value of the defined benefit obligation are as follows:

Opening balance	133 858 833	129 346 552
Benefits paid	(3 442 724)	(3 218 111)
Net expense recognised in the statement of financial performance	12 529 523	7 730 392
	142 945 632	133 858 833

Net expense recognised in the statement of financial performance

Current service cost	7 958 671	7 793 895
Interest cost	12 794 755	12 510 551
Actuarial (gains) losses	(8 223 903)	(12 574 054)
	12 529 523	7 730 392

23. Employee benefit obligations (continued)

Key assumptions used

Assumptions used at the reporting date:

Actual return on plan assets	6.93 %	7.47 %
Discount rates used	9.48 %	9.68 %
Expected rate of return on assets	2.38 %	2.06 %

The Average retirement age used in years was:	63	63
---	----	----

Long service awards liability

The Municipality offers employees a long service bonus for every completed ten year period of service. The long service awards paid on retirement, resignation or death. The amount payable is reviewed periodically and is assumed to increase in line with expected CPI inflation.

The long service award liability is not a funded arrangement, i.e. no separate assets have been set aside to meet its liability.

The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit method.

As at the financial year end, 1 272 (30 June 2019: 1 308) employees were eligible for long service awards. The current service cost for the financial year ended 30 June 2019 is estimated to be R 3 063 444 (2018: R 2 211 267).

The expected remaining working lifetime of eligible employees is 16.5 years (30 June 2018: 17.7 years).

Key assumptions used at the reporting date:

Discount rates used	8.11 %	8.51 %
Expected inflation	5.53 %	6.13 %
Net effective discount rate	2.44 %	2.24 %

Changes in the present value of the long service award obligation are as follows:

Opening balance	33 673 867	23 829 681
Benefits paid	(3 755 459)	(2 600 609)
Net expense recognised in the statement of financial performance	7 694 387	12 444 795
	37 612 795	33 673 867

Net expense of the long service awards obligation recognised in the statement of financial performance:

Figures in Rand	2019	2018 Restated*
-----------------	------	-------------------

24. Service charges

Sale of electricity	569 311 840	562 532 618
Sale of water	282 858 030	273 949 847
Sewerage and sanitation charges	56 684 284	37 848 632
Refuse removal	60 426 651	53 920 061
	969 280 805	928 251 158

25. Rental of facilities and equipment

Premises

Rental of buildings	148 439	272 674
Rental of equipment	1 822 141	207 376
Rental of facilities	145 948	172 395
Rental of land	6 296	3 380
	2 122 824	655 825

26. Interest received - investment

Interest revenue

Bank	2 649 064	5 047 948
------	-----------	-----------

Interest received from investments was mainly due to grant funds which were invested in FNB and Investec call accounts and earned an average of 6% interest on per annum.

27. Interest received - outstanding receivables

Interest received	35 926 216	23 616 118
-------------------	------------	------------

During the current financial year all consumers were charged interest at a rate of 10% on the arrear accounts as per the Rand West City credit control policy.

28. Income from agency services

Gauteng Department of Transport	20 520 652	22 008 414
---------------------------------	------------	------------

The municipality has an arrangement with the Department of Transport in which it collects licence fees on behalf of the department and receives an agreed fee for the service provided.

The Rand West City vehicle licensing centre in Westonaria was closed on 24 October 2018 due to investigations to identify officers alleged to be involved in fraudulent and corrupt activities. The closure has resulted in a drop in revenue as customers go to other stations to get services.

-----------------	------	-------------------

30. Property rates

Rates received

Assessment rates	206 594 222	188 357 680
Less: Income forgone (rebates)	(19 455 273)	(20 371 489)
	187 138 949	167 986 191

Valuations R'000

Agricultural	1 439 336	1 916 605
Business and commercial	2 363 445	2 403 045
Government	932 763	106 479
Residential	11 545 577	11 302 024
Vacant land	188 537	154 532
	16 469 658	15 882 685

Valuations on land and buildings are performed every 4 years. The last general valuations came into effect on 1 July 2014. Interim valuations are processed on an annual basis to take into account changes in individual property values due to alterations and subdivisions.

A general rate as approved for in the Property Rates Policy is applied to property valuations to determine assessment rates. Rebates are granted to certain property owners in accordance with the Property Rates Policy.

Rates are calculated on an annual basis, levied monthly and are payable by the 7th day of the following month. Interest as determined by Council is levied on outstanding rates.

The municipality was granted a two year extension by the Member of Executive Council of the Gauteng Department of Corporative Governance and Traditional Affairs and the new general valuation will be implemented on 01 July 2021. This is done in line with section 32(2)(b)(ii) of the Municipal Property Rates Act no 29 of 2014

31. Government grants and subsidies

In-kind benefits

The Executive Mayor, Speaker, Chief Whip and Mayoral Committee Members are full-time. Each is provided with an office and secretarial support at the cost of the Council.

The Mayor, Speaker and Chief Whip each have the use of separate Council owned vehicles for official duties.

The Executive Mayor has two full-time bodyguards and the Speaker has one full-time bodyguard.

In the 2017/18 financial year, the municipality derecognised redundant and unserviceable assets from the municipality's assets register as shown in note 40, an included in the derecognised assets were the auctioned ones which had a carrying amount of R 4 454 015 at time of derecognition. In the 2018/19 financial year, an auction was held to dispose these assets and a gross amount of R 6 061 707 less costs to sell amounting to R 492 278 resulting in a net amount of R 5 569 429 (Vat inclusive) being realised. The net gain realised excluding VAT amounted to R 4 842 982. The carrying amount of the assets disposed was Nil as they were derecognised in the 2017/18 financial year.

Investment property disclosed in note 11 with a carrying amount of R 980 000 was disposed off for an amount of R 852 174.

- Claim by N.V. Sikhokane for unfair labour practice.
- Claim by Z. Mfaze for unfair labour practice.
- Claim by P. Mafika for unfair labour practice.
- Claim by Sibanye Gold and 5 others for disputes on rates.

Contingent assets

At the beginning of the 2017/18 financial year the municipality, the municipality opened with as unspent conditional grant for the Gauteng Department of Human Settlements of R 25 143 709, and during the current financial year an amount of R 71 100 000 was gazetted. By the end of the financial year, only R 15 686 250 was transferred to the municipality, and an amount of R 16 390 087 as disclosed in note 4 was transferred on 18 July 2018 hence was recognised as a receivable from non exchange transactions and the conditions met amounted to R 57 220 046. The amount of R 34 522 395 has not yet been transferred and this resulted in a possible asset that may arise because of a gain that is contingent on future events that are not under the municipality's control.

Related party transactions

Purchases from / (sales to) related parties: Organisations in which councillors and/or employees have a direct or indirect material interest:

Aredireng Security & Projects: Councillor	1 215 846	384 596
Shumba Event Solutions cc: Councillor	5 600	37 700

For the above related parties, the transactions were within the normal course of business and there were no balances outstanding as at 30 June 2019 (30 June 2018: R 2 000 outstanding to Shumba Event Solutions cc).

Councillors/Mayoral committee members

Refer to note 35 "Remuneration of councilors". The total amounts paid to councillors was R 26 759 488 (2018: R 26 355 498).

Executive management

Refer to note 34 "Employee related costs". The total amount paid to municipal managers and executive managers was R 11 609 615 (2018: R 10 313 344).

51. Change in estimate

Property, plant and equipment

The useful lives of certain property, plant and equipment items on the asset register were assessed during the current financial year and it was found that certain assets are being utilized for periods that extent beyond their original expected useful lives. This resulted in the remaining useful lives of these particular assets being adjusted downwards to accommodate the prolonged utilisation. The effect of this revision has resulted in the depreciation charge changing as shown below:

Depreciation before adjustment in useful lives	R 28 833 482
Depreciation after adjustment in useful lives	<u>R 16 993 619</u>
Effect of the change in estimate (decrease)	<u>R 11 839 863</u>

52. Prior period errors

Receivables from exchange transactions was increased by R 2 034 926 due to R 163 927 and R 1 871 000 for prepaid electricity sales receivable and sale of sanitary lane on credit that was not recognised in 2017/18 respectively.

Investment property was decreased by R 2 040 188 due to derecognition of investment property resulting from loss of control and increased by R 980 000 due property omitted from the register.

Property, Plant and Equipment was decreased by R 2 482 070 due to reclassification of assets to repairs and maintenance and increased by R 5 614 483 due to property, plant and equipment that was not previously accounted for.

Intangible assets was increased by R 144 155 due to capitalisation of computer software.

Payables from exchange transactions were increased by R 15 954 381 due to invoices that were not captured relating to the previous financial period and reversal of incorrect transactions.

Payables from non exchange transactions were decreased by R 2 211 538 due to the recognition of revenue for the work performed in 2017/18 on the debt collection deposit received as the condition had been met.

VAT payable was increased by R 1 313 295 due to expenditure invoices that were omitted in the prior financial period and reduced by R 288 462 due to the VAT on the revenue for the work performed in 2017/18 on the debt collection deposit received as the condition had been met and increased by R 244 043 due VAT to sale of sanitary disposal omitted.

Provisions - current liability was increased by R 7 931 788 due to interest charged on licensing agreement settlement settlement on BIQ system that was previously used by the municipality. The system use paid for, however there is a court order against the municipality on interest from the date of claim of July 2013 to date which municipality the did not pay. The case was finalised in 2016 and the municipality paid interest for 2015 and 2016 only.

Accumulated surplus was increased by R 5 195 170 due to the restatement of items disclosed above.

Service charges was increased by R 142 545 due to prepaid electricity sales not recognised in 2017/18.

Interest received - outstanding receivables was reduced by R 2 041 666 due to the erroneous billing on the mines.

Other income was increased by R 1 923 077 due to the recognition of revenue for the work performed in 2017/18 on the debt collection deposit received as the condition had been met.

Property rates was decreased by R 30 625 000 due to reversal of billing on mines for the period July 2017 to January 2018 as per the outcome of the valuation appeal board.

Depreciation and amortisation was increased by R 30 845 due to additions of intangible assets and decreased by R 177 716 due to adjustments to property plant and equipment.

Finance costs decreased by R 1 287 135 due to interest in outstanding creditors that were not accounted for in prior year.

Debt impairment was decreased by R 32 666 667 due to reversal of billing on mines for the period July 2017 to January 2018 as per the outcome of the valuation appeal board as the amount had be fully impaired as at 30 June 2018.

Contracted services were adjusted for the following reasons:

- Increased by R 9 160 188 due to credit cost control and meter management invoices that were previously not accounted for in the prior year.

- Increased by R 9 100 329 due to the reclassification of General expenses to fleet management and IT supports costs in order to correctly align to the municipal standard chart of accounts.

General expenses was adjusted for the following reasons:

- Increased by R 3 346 760 due to invoices that were previously not accounted for in the prior year.

54. Risk management

Financial risk management

The municipality's activities expose it to a variety of financial risks: liquidity risk, credit risk and market risk.

Liquidity risk

The municipality's risk to liquidity is a result of the funds available to cover future commitments liquidity risk arises largely from the municipality's ability to fund assets and meet financial obligation. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Cash flow forecasts are prepared and adequate utilised borrowing facilities are monitored.

The table below analyses the municipality's financial liabilities and net-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

At 30 June 2019	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years	Total

Borrowings	1 428 712	-	-	-	1 428 712
	774 173 239	-	-	-	774 173 239

Credit risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The municipality is exposed to significant credit risk as its consumers are largely unemployed and are from low income households. Concentrations of credit risk are as per the financial instruments detailed below and for their credit quality refer to the various notes. The municipality decreases its exposure and concentration of credit risk by only depositing cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Financial assets exposed to credit risk at year end were as follows:

Financial instrument	2019	2018
Cash and cash equivalents (Note 3)	30 016 660	43 051 043
Receivables from exchange transactions (Note 4)	183 196 584	150 743 532

54. Risk management (continued)

Refer to the notes 3, 4, 5, 8 and 9 for the aging of the financial instruments and any impairment losses recognised in the current financial year.

In the current year, no investments have been pledged as security for borrowings. In prior year, investments were pledged as security on borrowing with a carrying amount of R 1 428 712 . Refer to note 21.

Market risk

The type of market risk that the municipality is exposed to is interest rate risk, this arises on interest-bearing financial instruments recognised in the statement of financial position. The Municipality manages this risk by fixing the interest rates on the loan. Refer to note 21 for information on borrowings.

55. Going concern

The audited financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

We draw attention to the fact that the municipality had a net deficit of R 83 835 303 for the year ended 30 June 2019 and the current liabilities of R 1 113 886 741 exceeded the current assets of R 256 537 862 by R 857 348 879 as at 30 June 2019. The municipality is currently faced with numerous financial problems which impact, amongst others, on its ability to meet its financial commitments and the provision of sustainable basic services. Challenges faced regarding financial issues manifests in cash flow constraints.

During the current financial year, the municipality experienced serious cash flow challenges. While the municipality had taken reasonable steps to ensure that all creditors were paid within 30 days, it was not able to meet this criterion. Because of this, there were some instances where the municipality incurred interest in respect of outstanding balances of creditors. There is a material uncertainty and, therefore, the municipality may be unable to realise its assets and discharge its liabilities in the normal course of service delivery.

Rand West City Local Municipality has developed a revenue enhancement strategy which seeks to address the issues that have contributed to the current situation. This strategy takes a holistic approach to the organisation and was presented to and approved by the Rand West City Local Municipality Council. The plan is for various strategies to effect the changes needed for viability and sustainability of the municipality but not all could be considered due to its' limited cash-flow and institutional capacity. In addition to this, the strategies will be balanced between short term and long term to ensure the strategies will have the greatest impact based on the resources available, financial and human resources.

56. Events after the reporting date

The accounting officer is not aware of any other matter or circumstance arising since the end of the financial year to the date of authorisation of these financial statements.

- Councillor B. Mahuma was elected as the Executive Mayor for the Rand West City Municipality on 31 July 2019 after the former Councillor M. Khumalo was elected in the Gauteng Provincial Legislature after the National elections.

57. Unauthorised expenditure

Opening balance as previously reported	879 843 466	554 912 697
Correction of prior period error	(11 067 120)	-
Opening balance as restated	868 776 346	554 912 697
Add: Current year unauthorised expenditure	113 029 071	324 930 769
Closing balance	981 805 417	879 843 466

The current financial year unauthorised expenditure was due to under budgeting for the expenditure line items listed below. See Statement of Comparison of Budget and Actual Amounts and note 61 for detailed reasons of over spending.

The over expenditure incurred by the municipality during the year is attributable to the following categories:

Non-cash	94 733 293	231 883 348
Cash	18 295 778	93 047 421
	113 029 071	324 930 769

Analysed as follows: non-cash

Employee related costs	11 572 759	33 499 592
Depreciation and amortisation	-	14 915 590
Impairment loss of assets	12 076 561	13 803 798
Finance costs	40 722 678	38 150 183
Debt impairment	-	99 718 165
Assets derecognised	30 361 295	31 796 020
	94 733 293	231 883 348

Analysed as follows: cash

Employee related costs	6 847 695	7 904 258
Finance costs	3 754 634	15 856 021
Bulk purchases	-	42 156 927
Contracted services	7 693 449	11 927 892
General expenses	-	15 202 323
	18 295 778	93 047 421

Disciplinary steps taken/criminal proceedings

Management submitted all unauthorised expenditure incurred in prior periods to council for investigation by the Municipal Public Accounts Committee. Current financial year unauthorised expenditure will be reported to Council in the next financial year. No criminal or disciplinary steps have yet been taken as a consequence of the above expenditure.

The prior year adjustments disclosed in note 52 resulted in the following adjustments to unauthorised expenditure:

Reconciliation of correction of prior period error

Depreciation and amortisation	(146 871)
Impairment loss of assets	30 845
Finance costs	9 383 626
Debt impairment	(32 666 667)
Contracted services	9 160 187
General expenses	3 171 760
	(11 067 120)

Action taken / to be taken in respect of irregular expenditure

Management submitted all irregular expenditure incurred in the previous financial year to council for investigation by Municipal Public Accounts Committee. The current year irregular expenditure will be reported to council in the next financial year.

In the prior year, some of the irregular expenditure was investigated and a total amount of R 513 778 697 was approved for write off by Council. The write off was made up of R 262 201 973 submitted to Council by MPAC and R 251 576 724 was subsequent expenditure on the transgressions not complied to. When council resolved the write off in the prior year, an amount of R 12 096 603 was referred for further investigation and an amount R 427 021 was resolved to be recovered from responsible officials. It was also resolved that the Accounting Officer should implement the necessary disciplinary against officials who misrepresented information. As at 30 June 2019, the processes were not yet concluded.

As at 30 June 2019, no criminal or disciplinary steps have been taken as a consequence of the above expenditure as the processes had not yet been concluded.

Current financial year irregular expenditure will be reported to Council in the next financial year.

Correction of prior period error

The prior year adjustments on contracted services disclosed in note 52 resulted in prior period error correction on irregular expenditure of R 5 750 000 as the contract was non-compliance with section 36 SCM regulations.

61. Budget differences

Material differences between budget and actual amounts

All budget fluctuations above 10% in comparison to actual results for the financial period were considered material and are explained in the Statement of Comparison of Budget and Actual Amounts.

- 61.01 **Service charges** was lower than budgeted revenue due to revenue enhancement projects that did not yield the target.
- 61.02 **Rental of facilities and equipment** was higher than budgeted due to adhoc rentals that increased.
- 61.03 **Interest received - outstanding receivables** was above budget due to increase in non payment by consumers.
- 61.04 **Income from agency fees** was over budgeted for.
- 61.05 **Other income** was over budgeted for.
- 61.06 **Interest received - investment** was lower due to less money being invested in Investec and FNB call accounts.
- 61.07 **Property rates** was over budgeted for.
- 61.08 **Government grants and subsidies** was within budget with a variance due to the unspent HIV and INEP grants.
- 61.09 **Public donations and contributions** was not budgeted for during the financial year.
- 61.10 **Fines** were over budgeted for, less traffic infringements were recorded during the current financial year.
- 61.11 **Employee related costs** realised an increase due to overtime and actuarial valuations that were overspent.
- 61.12 **Remuneration of councillors** was within budget
- 61.13 **Depreciation and amortisation** was within budget.
- 61.14 **Impairment loss of assets** was not budgeted for.
- 61.15 **Finance costs** were under budgeted for due to the interest costs on employee benefit obligation, landfill site and discounting receivables which were not budgeted for and interest on creditor's accounts mainly the Eskom account. The excess will be reported as fruitless and wasteful and unauthorised expenditure and will be reported to council in the next financial year.
- 61.16 **Debt impairment** was within budget.
- 61.17 **Assets derecognised** was not budgeted for.
- 61.18 **Repairs and maintenance** was within budget.
- 61.19 **Bulk purchases** was within budget.
- 61.20 **Contracted services** was more than budget due to higher credit control costs, meter management, fleet and security costs. The overspending was reported as unauthorised expenditure and will be reported to council in the next financial year.
